

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

Coats - of - Arms

To properly portray a Coat-of-Arms in colors requires an intimate knowledge of Heraldry.

Our Heraldic artist was formerly connected with the Herald's College, London.

We can furnish any Coat-of-Arms described in this volume at a price ranging from Fifteen Dollars upward, according to the size of the painting.

A Pedigree Chart engrossed by hand on parchment vellum is an acquisition to any library. Price Fifty to One Hundred Dollars, according to size and the number of names inserted.

Heraldic Book-Plates designed.

The Right to Bear Arms

In the reign of Henry V. a proclamation was issued prohibiting the use of heraldic ensigns to all who could not show an original and valid right, except those who had borne arms at Agincourt. Despite the royal ordinance, a multiplicity of abuses found their way into all matters touching descent and arms, which called for a reformation and gave rise in the early sixteenth century to the *Heralds' Visitations*, documents of high authority and value.

All persons, whether in Great Britain or America, who can deduce descent from an ancestor whose armorial ensigns have been acknowledged in any one of the "*Visitations*," are entitled to carry those arms by right of inheritance. When however, no such descent can be shown, the person must, if possible, prove himself to be descended from someone whose right has been admitted from a grantee or in fault of that proof must become a grantee himself.

The Registry of American Families Entitled to Coat Armor includes the known armigerous families of all the States in the Union, and while the plan of the work resembles in the main that of **Burke's General Armory**, it goes farther, including not only the arms of persons of British ancestry, but of those whose ancestors came from Continental Europe.

The Arms of More than One Thousand Families are given, with the full name of the first of the family in America; the date of his arrival, and the place of settlement, and, in the majority of instances, the town or county whence he came.

There are thousands in America entitled to coat armor, who, by a thorough search of the records, may be able to prove their claims.

Although great care has been taken, errors and omissions in a work of this nature are unavoidable. As a **Second Edition** of the **Registry** has been called for, the Publishers would esteem it a favor if any family entitled to Coat Armor omitted from the **First Edition**, would forward the information for publication.

CROZIER'S GENERAL ARMORY

Record Searching

The Genealogical Association undertakes record searching in any part of Great Britain or the United States.

All work is personally attended to by professional genealogists.

Application papers prepared for admission to any of the Patriotic Societies.

We employ resident genealogists in the New England States, Virginia, Maryland, Pennsylvania, New Jersey, and New York.

Insignificant commissions and work on a contingent basis are declined.

THE GENEALOGICAL ASSOCIATION

ONE EAST 40th STREET NEW YORK

Genealogical Printing

We not only compile family histories, but we print them as well.

You have perhaps gathered data concerning your ancestry. If it is in manuscript form it is practically inaccessible to many of your family connections. Why not print a small edition of these records?

An experienced genealogical proof reader is a necessity. We can supply one.

Send us your manuscript and we will give you an estimate on the cost of printing a limited edition.
